

## A hand sign for the Unseen One Perfect and Only God

## The Trinity

One God but three persons

Three identical model White Toyota Hilux Bakkies each with a different driver.

The drivers are all identical in character and value system.

Father, Son and Holy Spirit are all one type of being, namely God.

God is all-powerful, all-knowing and all-around.

However, they are different persons with different roles in the Trinity and in the Church.

In other words, they have exactly the same bodies or abilities,

But have different souls that have the same character and values.

Another way of explanation is to say God is three perfectly good identical triplets.

If there is three identical white Hilux Bakkies parked in a row and you ask what bakkie is parked there the answer is a Hilux bakkie. If there is parked a Hilux bakkie, an Isuzu bakkie and a Ford bakkie and you ask what bakkie is parked there the answer is a Hilux, an Isuzu and a Ford. Simerly just like you would say there is **a** Hilux bakkie parked even though there are three bakkies parked God is also one. Three similar persons is one because they are the same. No two things on earth are the same. God is three persons that are the same. Therefore he is one God.

Deuteronomy 6:4 “Hear, O Israel: The Lord our God is one.”
